Personal Profile

Detail-oriented **Computer Science** graduate from **Government College University, Lahore**. Proficient in **Python** and **C++** with a strong foundation in **Data Science** and **Deep Learning**. Experienced in building intelligent systems, including a medical AI project for disease detection using **TensorFlow** and **Keras**. Adept at managing complex data structures and RESTful API architectures.

Education

BS, Computer Science
Government College University, Lahore, Pakistan

2021 – 2025

Skills

- Languages: C++, Python, Dart, Java, JavaScript
- Frameworks & Libraries: React.js, Flutter, Next.js
- Databases & Storage: MySQL, Firebase, Oracle
- DevOps & Tools: Git/GitHub

Projects

Final Year Project – Pneumonia & Tuberculosis Detection from Chest X-rays:

- Developed a deep learning system to classify and segment chest X-rays into three distinct categories.
- Utilized **Python** and **TensorFlow/Keras** to implement custom CNN models and transfer learning.
- Built image segmentation masks using **U-Net** to improve diagnostic precision.
- Achieved high classification accuracy through rigorous data preprocessing and model tuning.

Gym Membership App (Flutter):

A mobile application for gym members to view their status, check attendance, and manage basic membership tasks.

- Built using **Flutter** and **Firebase**
- Clean, responsive UI with state management and authentication logic

Inventory Management System (for a sanitary shop):

Designed and developed a full-featured inventory management system using the **MEAN stack** integrated with a **MySQL** database. Focused on implementing a dynamic billing module as per client requirements, enabling real-time invoice generation, product-wise total calculations, and PDF bill export using **jsPDF**. Built admin panels to manage stock, customers, and sales, with a user-friendly Angular frontend and secure RESTful API architecture.

Soft Skills

- Problem-Solving & Critical Thinking
- Team Collaboration
- Self-Motivated & Quick Learner
- Time Management
- Adaptability
